Helping and empowering
people to sustainably shape
and determine their lives in
dignity and independence

OUR GOALS*

* goals of NG Team. Nehemiah Gateway Albania is part of NG Team.

SUSTAINABILITY

We especially want to provide socially deprived people with the chance to build up their own sustainable existence. They can then create, or at least support, a stable local community in their respective societies based upon reliable norms and values.

HELPING OTHERS TO HELP THEMSELVES

By purposefully establishing and supporting projects that are “helping others to help themselves” in the target countries, we want to help create desirable and lasting living environments within their own country.

<p>625 treatments</p>		<p>1 167 physiotherapy sessions</p>
<p>233 visits by Chiropractic specialist</p>		
	<p>886 speech therapy sessions</p>	
<p>906 food packages</p>		<p>1 2-weeks camp with children with special needs</p>

SOCIAL AND MEDICAL

“Giving hope and restoring dignity through Special Needs Education, physiotherapy, and more.”

We offer a range of nursing services to people in need and pupils of Shkolla NEHEMIA and Amaro Tan School. In addition to the free service for our social clients in the center in Buçimas, we also provide the same services in their homes, to those who are unable to come to the nurse center located on campus.

On our campus, we have trained physiotherapists assisting people with physical injuries or disabilities to be able to adapt better, and thrive in their lives. Sometimes, these disabilities make it difficult to come to our office, so we provide such services through home visits.

In Albania, there is a severe shortage of services for children with disabilities and learning differences such as Down Syndrome and autism. At our Children’s Learning Center, we offer speech therapy, as well as Special Needs Education free of charge to around 60 regular clients. Every year, we have day camps in which our social workers help the children with special needs to interact and develop their social skills.

Currently, we have soup kitchens operating in both Pogradec (Amaro Tan) and Gjirokastër. In addition to providing food for the children in the educational programs at these locations, we provide warm meals for others in need.

Each year, we put together food parcels and deliver them to families in remote villages. By including some basic staples (rice, oil, pasta, sugar, etc.) we are able to help with the immediate needs of these families.

<p>470 pupils</p>		<p>23 pupils receive scholarships</p>
<p>414 pupils participated in road safety training</p>		
		<p>105 pupils attended Royal Rangers program</p>
<p>40 people take part in the JLTC (Junior, Leader training camp)</p>	<p>4 interns from Ludwig Maximilian University of Munich</p>	

SHKOLLA NEHEMIA

SHKOLLA NEHEMIA

“Advancing educational methods and establishing fundamental values in pupils from Kindergarten to the 12th grade.”

Shkolla NEHEMIA offers high quality and value-based education for children in Pogradec. Continuous improvements in Albania have enabled Nehemiah Gateway Albania to contribute positively by educating for the future.

The Royal Rangers program is for children of all ages. Through group games and activities they learn and practice: protecting the nature, being one with it, supporting and accepting each other, working in teams, and understanding and helping people in need.

Road accidents are a daily problem in Albania due to a lack of proper training on how to drive safely. That is why, in cooperation with Bavarian association, Gebietsverkehrswacht Schongau e.V., we run this road safety project for children and young people to learn the rules of the road, how to be safe as pedestrians and drive responsibly to protect others. Not only our own pupils receive intensive training, but also classes from public schools in the district and remote mountain villages.

“business@school” is another highly rewarding program, it offers a valuable opportunity for young people to foster their entrepreneurial spirit and gain practical experience in the world of business. By developing their own realistic business ideas, participants can learn crucial skills such as critical thinking, problem-solving, teamwork, and innovation.

**We Invest In People
Here's How We Do It***

* strategic directions of NG Team. Nehemiah Gateway Albania is part of NG Team.

SOCIAL AND MEDICAL IMPROVEMENT

Physical and psychological aid, as well as social support, is needed in order to enable people to take care of themselves. Nehemiah Gateway provides social and medical assistance to individuals and families, and humanitarian support in emergencies.

EDUCATION

Education is the source of sustainable self-sufficiency, and therefore, also an important foundation for human dignity. Nehemiah Gateway invests in education projects from preschool through masters-level education at facilities in Albania and worldwide.

PROJECT EMPOWERMENT

Professional coaching and support enable initiatives to grow into successful enterprises and NGOs under the principle of help for self-help. Beyond formal education at our schools and university, we train and mentor future leaders and entrepreneurs, so that they can better help others.

CORE VALUE IMPLEMENTATION

Sustainable help for self-help can be successful only when the communication, acceptance, and implementation of core values are ensured. All our project work is infused with respect and compassion for our shared humanity - no exceptions

<p>33 696 warm meals</p>		<p>130 pupils</p>
	<p>333 food packages</p>	
<p>33 students in sewing</p>		<p>2 pupils attended professional high school Enver Qiraxhi</p>
	<p>23 students in carpentry and paperwork</p>	

AMARO TAN

“Providing a place for children to grow and develop in an encouraging environment, regardless of economic means.”

Seeing the reality in Albania regarding the difficulties of providing education for children with social problems, poor or coming from the Roma and Egyptian communities, we offer Amaro Tan kindergarten and school. An environment, as the name “Amaro Tan” suggests in the Roma language - “our place”, to give these children an opportunity to get a good education and a better future.

Amaro Tan offers programs in education and social care, and also a free warm meal. It also offers after school classes to give the pupils practical skills in sewing, cooking, foreign languages, and carpentry. Children also have the opportunity to learn music to enrich their lives.

Besides having a daily school program, we offer an after-school program in which the pupils can discover and develop their talents, as well as enrich their lives. A few of the classes offered are sewing, cooking, languages, wood-workshop and music.

8 548
warm meals

174
food packages

6
people are supported
with medication

14
Children are supported
with clothes, shoes, bags,
as well as with school
materials

GJIROKASTËR

This program began 26 years ago as a daily service for people who had no, or very little, income. Currently, we have soup kitchens in Pogradec (Amaro Tan) and Gjirokastër. A warm meal is served every day not only to the children who are part of the educational program in these centers, but also to people in need, elderly people that do not have family members to take care of them, as well as poor and marginalized children and their families.

By the time the academic year is over, many children are forced to spend most of their time on the streets or at home, facing difficult family situations. Every year Nehemiah Gateway Albania organizes summer camps for children, where they have the opportunity to play, make new friends, be creative in their own ways and increase their social skills. With a variety of sports, games, educational activities, etc., children have a new and different way to spend the summer season. These camps also offer many sports activities and children eat a warm lunch together.

14 children from the Roma community participated in the after school program. Every weekday we take them from near their homes to the center where they enjoy a warm meal. After lunch, the social worker helps them with their homework. The children are also involved in social activities and games. We support the children with clothes, shoes, bags, school supplies, etc.

<p>35 students attended bachelor studies</p>		<p>22 students attended master studies</p>
<p>14 graduates, 9 bachelor's and 5 master's</p>		
	<p>130 alumni</p>	
	<p>51 students attended German course level A1 and A2</p>	

HIGHER EDUCATION INSTITUTION NEHEMIAH GATEWAY

Integrating theory and practice to equip students with transferable skills and knowledge.

Our mission is to empower not only the people in Albania but also internationally. For this reason, Nehemiah Gateway University was established. An institution of higher education which gives the opportunity of pursuing higher studies, not only to local students but also to students from Europe, Africa, Latin America, Cuba, etc. Students have the opportunity to pursue Bachelor studies in Business and Economy, a dual system based on the German model and also the Master of Management with specialization in Business.

In Albania, young people have difficulty finding work because many of them do not have the proper education and orientation. For this reason, we provide intensive German language courses. In this way, they create independence and sustainability for their lives and have a better future.
